

TILELAB®

ONESTEP™

CLEANER & RESEALER

- Ready-to-use cleaner and resealer for all types of stone, grout and tile
- Non-acidic, non-abrasives; won't damage stone grout and tile
- Inhibits growth of mold and mildew
- Strong grease-cutting formula

PRODUCT DESCRIPTION

Ready-to-use cleaner and resealer inhibits growth of mold and mildew. Non- acidic, non-abrasive formula won't damage stone, grout or tile. Cuts through grease, dirt, food and soap scum on tile, grout, chrome, glass and laminates. Contains TileLab® SurfaceGard® Penetrating Sealer to reseal as it cleans. Leaves a fresh citrus scent.

RECOMMENDATIONS

Because OneStep™ Cleaner & Resealer builds protection with each repeated use, first use SurfaceGard Penetrating Sealer to seal, then use OneStep Cleaner & Resealer for ongoing, everyday cleaning and resealing.

USES

Stone, grout, ceramic, porcelain and quarry tile.

APPLICATION

Spray directly on the surface of tile and wipe off excess. On tougher soils, wait several minutes before wiping. Heavy build-up may require scrubbing. Use a white nylon pad to avoid scratching tile. For cleaning larger areas use TileLab Concentrated Tile & Stone Cleaner. To remove heavy build-up of acrylic and wax floor finishes, mold and mildew stains or greasy dirt, use TileLab Heavy-Duty Cleaner & Stripper.

CAUTION

Keep out of reach of children. May be harmful if swallowed. Do not induce vomiting. Give plenty of water and call a physician immediately. If eye contact occurs, flush immediately with plenty of water for 15 minutes. If contact with sensitive skin occurs, wash with soap and water. Call physician if necessary. Do not mix with other solutions. Keep from freezing.
