

TILELAB[®]

STAIN REMOVER

- Deep cleans tough stains without scrubbing
- For marble, stone, tile and grout
- Ready-to-use — No mixing

PRODUCT DESCRIPTION

Ready-to-use paste that removes deep-set stains from stone, porous tile, grout and masonry. Provides deep cleaning action for tough stains such as wine, coffee, tea and mustard.

USES

Removes deep-set stains from porous surfaces: stone, unglazed tile, porcelain, clay pavers, grout, brick, cement, masonry.

APPLICATION

Mix well if some liquid has separated from the paste. Apply in a uniform coat about 1/8" (3 mm) thick extending over the stained area slightly. Cover with foil or plastic wrap and tape down edges. Allow paste to remain covered for 12 - 24 hours. Remove covering and paste. Clean the surface. Repeat the process if any stain still remains. For stronger cleaning action, mix a small amount of household bleach — 1 teaspoon for 3-inch diameter stain (4.7 gm/7 cm) with the paste and apply as above.

Note: Stain Remover is a powerful cleaner, but may not be totally effective on some very stubborn grease stains. For best results, seal surface with TileLab[®] SurfaceGard[®] Penetrating Sealer.

COVERAGE

2 sq. ft. per lb. (0.18 sq. m per .45 kg).

PACKAGING

1 lb. (.45 kg) container.

ITEM CODE

TLSR1

CAUTION

Keep out of reach of children. May be harmful if swallowed. Do not induce vomiting. Give plenty of water and call a physician immediately. If eye contact occurs, flush immediately with plenty of water for 15 minutes. If contact with sensitive skin occurs, wash with soap and water. Call physician if necessary. Keep from freezing.
